KSN **सूचना**

From the Principal's Desk

Dr. V. Sridhar

The schools reopened after a closure of almost two years. With an environment, new to parents, teachers, and students alike, it became imperative to have the jigsaw pieces rightly assembled. The transitional phase to offline school meant a changed spectrum of teaching and learning. To bring every child back to school and inculcate a sense of support was no mean task. Assuring parents that the school was equipped for their wards' safety was of prime importance as well.

The challenges and opportunities encountered by our staff members while using technology to support learning deserve a special mention. After discussions, accelerated efforts taken by the teachers helped the children in these changing times. The trusting relationship established between the parents and teachers during the pandemic enables us to fulfill the desired vision of change. The unconditional dedication that my team offers to renew the spark of students' creativity while harnessing technology is invaluable. With all these and much more, the students of KSN are being empowered to face the future with hope, cheer, and fortitude.

Evidently, these small puzzle pieces have come together to make a big and beautiful picture.

JOKES

1. What did the traffic light say to the car?
Ans: Don't look at me I'm about to change!?!
2. If child Labour is a crime. Why do teachers give homework?
3. What is the favourite ~~sub~~ subject of a snake?
Ans: Hisz-Tory
4. A Fox asked a monkey

Jumpy, why are you solving sums on the floor?

Because you told me to do it without Tables!

NAISHA PAREK- CLASS 5B

I LOVE DINOSAURS - AYUSH MANOJ CLASS: V B

I love Dinosaurs, big and small.
Carnivore or Herbivore, I love them all.
T.Rex goes chomp, chomp, chomp.
When he walks, the earth goes whomp, whomp, whomp.
Apatosaurus and Brachiosaurus- herbivores all.
Eating trees, moving around, big and tall.
Procompsognathus is the little one.
Eats quick, cleans up and makes a fast run.
Triceratops is the three-horned one.
He's built like a tank and moves like one.
There are many more that I would like to write,
But this poem would go on and on and that's not right.
I love Dinosaurs, big and small.
Carnivore or Herbivore, I love them all.

HOW I FELT AFTER RECEIVING THE SPL BADGE AND HOW I DECIDED TO KEEP MY NAME UP

-Bala Shrivatson Class: IX

Usually, every school assigns the responsibility of the SPL (School Pupil Leader) Badge to two students from grade 11. In KSN CBSE, this year, grade 9 being the highest grade in the school, our esteemed principal Dr.V.Sridhar and teachers have given us the opportunity of being the School Pupil Leader in grade 9.

An Investiture Ceremony is held when the Principal and teachers pass on this badge to the selected students.

I was delighted when I found out that I had been picked as one of the SPLs of our school.

This badge holds great respect which clearly indicates that important tasks are to be executed by the badge holders.

I, as one of the two SPLs of KSN CBSE, shall strive to keep my school's name up by helping peers, serving society, and learning from elders.

Generally, one gets elected as the SPL by winning an election by the students who compete to become badge holders.

This time the SPLs got elected by the teachers and not the students. So, apart from taking the oath as an SPL, I took another oath as an individual for working toward fulfilling my Principal's and teachers' trust in me.

I wish to thank my Principal and teachers for trusting us. I also wish to thank my parents for supporting me. I will work towards scoring good grades and adding laurels to my school.

This is how I shall keep my name up and uphold the responsibility as the SPL.

CAPTURING TODAY -VEDHA KANNAN CLASS: VIII

Imagine an old book with coffee-colored pages, a painting with prominent brush strokes, and colorful traditional temples. Can you think of one word to describe it all? Does art sound correct? Art is, perhaps, humanity's greatest gift. It is the expression of one's ideas and thoughts, in a creative manner. The best part about it is, every human is an Artist. May it be humming your favorite songs to a beat, scribbling stray lines from your go-to book, or rough doodles on the margins of textbooks. It's Art. You may be an amateur photographer, writer, cook, sculptor, architect, or actor, but above all, you are an Artist. Art can influence a person's emotions and what society believes. In history, the Indian writer Kalki's ideas of the past, which have been recorded in his epic novel, The Ponnaiyan Selvan is greatly influenced by Tamil literature and the inscriptions of Tanjore Temple is a testimony to this. Art, in all forms, also provides contemplations for future inventions and ideas, which pave the path to a brighter future. So, c'mon my fellow artists, pick your favorite art tool and start cracking your next masterpiece. As an artist, you are the primary capturer of life as we know it, preserving our generation's ideas, thoughts, and beliefs, for the present to improve, and the future to gaze at, curiously. Don't forget that 'Earth with Art, is just Eh'.

SCHOOL PUPIL LEADER – DEEPA TEJASWINI CLASS: IX

Firstly, I would like to explain what this role means to me.

To me, the role of a school leader is more than a badge, fame, or a fancy title, but is a chance to make a positive influence among students with the support of teachers. I feel a leader is not someone who just orders what one should do but someone who gives respect and understand the view of students as well as be a fun-loving person. I am glad to be given this opportunity and accept all the responsibilities and challenges to be faced during the journey of leading. I will definitely try my best to be a good leader who is ready to listen to the views of students and not judge who they are and what they do. Leaders must understand a situation, analyze all aspects, and offer solutions.

I will be a leader who is dedicated to what I'm doing and also an approachable person to share their problems and opinions with. No, a leader can't survive alone and the best results are achieved when the interests of everyone are taken care of. More than the opportunities and challenges in store, I owe a lot to the teachers who have believed in me with this huge task. I stand for justice and won't let down the chance I have got. I will strive to be the eyes of the school leading honestly and impacting a good influence on the students. I thank everyone who has believed in me and will continue to do my best as I have always been.

THE BRIGHT SIDE - K TUSHITA CLASS: IX

Everyday

I

Stand here

All by myself

Mistakes are made every day too,

Today is me, tomorrow is I and the day after is still me!

What's new is, every day is a new beginning and I'm set free by making myself a better me and

I am always winning.

I walk up to that shelf daily, go through the tough turns and stand stern, to get the best that will never fail me.

Every day, I stand here all by myself to explore the surprises life tells me. Every day is like a palette of colors. Somedays might be a darker shade while some might be very bright. It's we, who have to look and head up straight for the right and not let our dreams fade but always believe that LIFE GOES ON!

**I LOVE MATHEMATICS
BECAUSE..... - C K SOYA
MATH TEACHER**

**AN ARDENT CRICKET FAN
BY S. SRI ADVAITH ARUMUGAM CLASS - VIII**

An Ardent cricket fan,
Who sinks himself into cricket,
Watches a match,
With valor and pride.
When a batsman hits a six,
He makes a wild Roar,
Which makes his throat sore,
His cheering hands turn cherry Red.
When his man bumps a wicket.
His cheeks turn Red,
And his hands on his head,
When his favorite batsman goes for a duck;
Oh my God, he yells so loud,
But his cries vanish across the sky.
The last few overs, Make him nervous,
Sitting on the edges,
Brings the almighty into the picture,
offering so much prayers.
When his team clinches the trophy.
He brims with pride and blushes.
When his team loses,
He simply acclaims it useless,
But still, he is an Ardent cricket fan,
Who takes the sport to his heart.
Win or lose, Be a star.

Mathematics, as you all know, is the queen of all sciences. In this era of digitalization, mathematics plays a leading role in enhancing developments in every field of Science and Technology. Sadly, most people consider the subject tough and boring and think that 'special talent' is required to master it. This is false. It is simple, unambiguous, and easy to understand. It all depends on your approach. Don't be premeditated. First and foremost, try to develop the aggressive frame of mind - I CAN DO IT. Remember that mathematics is the only subject that is 100% true. It will never betray you. The subject is based on 'Simple reasoning'. Do we need more reasons to 'love' the subject?

Creator's Column

RIDDLES – BY PRANAV C – VII B

I'm delicious and give lots of energy. I'm a fruit, but you can also see me on the calendar.

What am I?

Answer: Date. Yummy calendars!

I'm full of holes but strong as steel. What am I?

Answer: A chain. Holes don't always mean fragile!

What has an eye but cannot see? What bird can lift heavyweights?

Answer: A storm.

What has a face and two I have many faces, expressions, and emotions, and I am usually right at your fingertips. What am I?

Answer: Emojis. I use emojis to express my emotions for the day.

I have two hands but no arms or legs who am I?

Answer: A clock. They wave at me all the time.

What bird is used for construction?

Answer: A crane. It's a bird AND a machine!

Nobody has ever walked this way. Which way is it?

Answer: The Milky Way. Sounds delicious.

What belongs to you, but everyone else can use it?

Answer: Your name. Better than people calling you "hey, you" all the time.

I have many faces, expressions, and emotions, and I am usually right at your fingertips. What am I?

Answer: Emojis. I use emojis to express my emotions for the day.

What two things can you never eat for breakfast?

Answer: Lunch and Dinner. But of course!

Which word in the dictionary is always spelled incorrectly?

Answer: Incorrectly. The answer was right there!

What do Alexander the Great and Winnie The Pooh have in common?

Answer: Same middle name. Duh also rhymes with The.

You are my brother, but I am not your brother. Who am I?

Answer: I am your sister. Now, this is just silly.

How many letters are in the alphabet?

Answer: 11 letters. If your answer was 26, you forgot this was a riddle.

What has a head and a tail but no body?

Answer: A coin. Oldie but goodie.

During what month do people sleep the least?

Answer: February, it's the shortest month. People are awake the least this month too

நேரம்

நா. து. சிவகாம சுந்தரி, பா. உஷாராணி - தமிழ் துறை

நேரம் என்றவுடன் நம் நினைவுக்கு வருவது காலம் பொன் போன்றது என்ற பழமொழியே. இப்படிப்பட்ட, பொன் போன்ற காலத்தை நாம் வீணாக்கும் போது கடிகாரத்தை பார் ஓடுவது முள் அல்ல, உன் வாழ்க்கை. - என்று நேரத்தின் முக்கியத்துவத்தை நமக்கு உணர்த்த முற்படுவார்கள். நேரத்தின் முக்கியத்துவத்தை ஒரு சில மணித்துளிகளில் ஓட்டப் பந்தயத்தில் தோல்வியுற்ற வீரனிடம் கேட்டால் அதன் வலி தெரியும்.

நேரத்தின் முக்கியத்துவத்தை உணர்ந்தே திருவள்ளுவரும், காலம் அறிதல் என்று அதற்கு ஓர் அதிகாரத்தையே ஒதுக்கியிருந்தார். எவ்வகைப்பட்ட பணியே? ஆயினும், காலம் அறிந்து செயல்படுதல் என்பது மிகச் சிறந்த திட்டமிடுதலுள் ஒன்றாகும். காலத்தோடு பொருந்தாத எச்செயலும் வெற்றி பெறுதல் என்பது இயலாத ஒன்று என்பதற்காகவே 'பருவத்தோடு ஓட்ட ஒழுக்கல்' - என்று குறிப்பிடுகிறார் வள்ளுவர். ஞாலமே கருதினும் உனக்கு கைகூடக்கூடிய வாய்ப்பும் உண்டு. ஆயினும், காலம் கருதி செயல்பட வேண்டும் என்ற கட்டளையையும் முன் வைக்கிறார். இதனையே, காலம் கருதி செயல்படுவோர் எதற்கும் கலங்காது ஞாலத்தை தன்னுடன் வசப்படுத்துவது கூட சாத்தியமென்றும் அடுத்த குறளில் வலியுறுத்துகிறார். மிகச்சிறந்த போர்த்திறனும் படை பலமும் உடைய அரசன் கூட நேரம் கருதியே பகைவருடன் போர் செய்ய வேண்டும். அப்போது மட்டுமே வெல்ல இயலும் என்றும் கூறுகிறார்.

ஒளவையாரும், தனது ஆத்திசூடியில், 'பருவத்தே பயிர் செய்' என்று நேரத்தின் முக்கியத்துவத்தை உணர்த்துவதற்காக குறிப்பிடுகிறார். கொக்கானது தனது உணவிற்காக நெடு நேரம் நீரில் காத்திருப்பதைப் போன்று நாம் உரிய நேரம் வரும் வரை காத்திருத்தல் வேண்டும். அத்தகைய பொறுமை உடையவருக்கு மட்டுமே உலகமானது வசப்படும். ஆனால் நாம் தற்காலத்தில் நேரமின்மை என்ற ஒன்றை சொல்லிக் கொண்டு வாழ்நாள் முழுமையும் இருக்க கூடிய நேரத்தை பொழுது போக்கு என்ற பெயரில் செலவழித்துக் கொண்டிருக்கிறோம். முறையான திட்டமிடலோ, உரிய குறிக்கோளோ இன்றி வாழும்பொழுது வாழ்வில் நிறைவும் பெற இயலாது. இயற்கையோடு ஒட்டிய வாழ்க்கை முறையை தவிர்த்து, செயற்கை பொருட்களால் ஈர்க்கப்பட்டு நம்முடைய நேரத்தை செலவழித்துக் கொண்டிருக்கிறோம். தனது 32 வயதிற்குள் பாரதி எழுதிய கவிதைகள் அத்தனையையும் நம்மால் நினைத்துக்கூட பார்க்க இயலாது. 100 ஆண்டுகள் வாழ வேண்டும் என்ற, அவரது கனவு நனவானது வாழ்நாளில் அவர் நேரத்தோடு போட்டி போட்டதாலேயே! மழை பொய்யாது பொய்ப்பது போன்று நாமும் நேரம் தவறாது செயல் பட்டு, நேரத்தினைத் தக்கவாறு செலவிடல் வேண்டும்.

Thank you Readers!
